

FEATURES AND ACCESSORIES

Features

Modempak's 80mm x 86mm vertical service column (pole) is an extremely versatile, economic and easy to install multi service outlet unit. The service pole is a two compartment channel with two removable covers and spans floor to ceiling.

- 80mm wide (across the face) x 86mm deep twin channel pole
- Accepts PDL 600 series outlets. PDL outlet plates and mounting clip are available.
- Each pole supplied with ceiling flange, top and bottom brackets.
- 3 metre and 6 metre lengths stocked
- Other lengths available for project quantities – call to discuss
- Optional Jacking struts for supporting the pole against the roof available.
- May be specified in any of the Dulux Duralloy® range of over 100 powder coat colours with Penrose White being a standard stock colour for immediate delivery.

Body and cover manufactured from extruded aluminium.
